Institute of Bio-Medical Electronics  
University of Toronto  
Toronto 5, Ontario, Canada

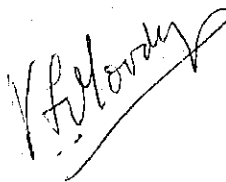

## FOREWORD

We believe that the Canadian Medical and Biological Engineering Conferences, of which this is the second, fulfill an important function. This conference provides a unique opportunity for Canadian scientists to meet each other and discuss their mutual researches. Visitors from the U.S. and other countries find that here they can meet virtually all of the Canadian groups studying in their areas of interest.

It had been planned to publish this digest in advance of the conference, but the postal strike put an end to that! Many of our contributors went to extraordinary lengths to get their manuscripts to us before the printer's deadline, and we owe a great debt of gratitude to our secretarial staff who bore the brunt of the ensuing burden.

Extra copies of this digest are available for \$5.00 per copy by writing to the Conference Secretary, c/o Institute of Bio-Medical Electronics, University of Toronto.

For the Papers and Publications  
Committee,

N. F. Moody, Chairman
