

9th CANADIAN MEDICAL AND BIOLOGICAL
ENGINEERING CONFERENCE

Digest of Papers

9ième CONGRES CANADIEN DE
GENIE BIOMEDICAL

Condensé des mémoires

15-18 August/août 1982 Fredericton, N.B.

CONFERENCE ORGANIZING COMMITTEE

CONFERENCE CHAIRMAN	R. N. Scott
TREASURER AND PUBLICITY.....	B. Hudgins
LOCAL ARRANGEMENTS.....	R. E. Gander
WORKSHOPS AND STUDENT PAPERS.....	V. A. Dunfield
SCIENTIFIC PROGRAM.....	W. Zingg
COMMERCIAL EXHIBITS.....	P. Paasche
CONFERENCE SECRETARIAT.....	Angela Stafford
PUBLICATIONS.....	CMBES Secretariat

A MESSAGE FROM THE CHAIRMAN	iv
THE PRESIDENT'S MESSAGE	v
SCIENTIFIC PROGRAM CHAIRMAN	vi

PLENARY SESSION I MONDAY 1030-1200

25 YEARS OF OPEN HEART SURGERY IN CANADA

1. Invited Speaker: J.C. Callahan, M.D., Director, Division of Thoracic and Cardiovascular Surgery, University of Alberta, Edmonton.
2. Recovery of Two Moving Dipoles from Surface Potential Distributions Computed on a Human Torso1
3. Real-Time Cardiac Ventricular Mapping by Parallel Analog Processing.....3

PLENARY SESSION II MONDAY 1330-1500

CLINICAL ENGINEERING

1. Invited Speaker: Paul Brown, Executive Vice-President, Canadian Hospital Association Ottawa, Ontario.
2. A Win-Win Situation in Shared Biomedical Engineering Services.....5
3. Recent Advantages in Surgical Tourniquets.....7

SESSIONS MONDAY 1530-1700

A. HAEMODYNAMICS

1. Effects of Glutaraldehyde Concentration and Storage Time on Mechanical Properties of Porcine Aortic Valvular Leaflets.....9
2. Design and Construction of a Cardiovascular Simulator for the Evaluation of Prosthetic Heart Valves.....11
3. *Uni-Axial Viscoelastic Properties of Bioprosthetic Heart Valve Materials: Application of Quasi-Linear Theory to Data from Instron-Type Testing.....13
4. Left Ventricular Diagnostic Patterns from: Ventricular Blood Flow-Dynamics, First Heart Sound Spectra and Wall Kinetics.....15

B. CLINICAL ENGINEERING - COMPUTING

1. Clinical Computing: The Relative Merits of Desk-top Computers and Mini Computers.....17
2. Microprocessor Based Contraction Data-Logger.....19
3. Microprocessor Acquisition, Display and Recording of Physiological Trends.....21
4. *Computer Enhanced Medical Diagnosis in Dermatology Using a Disease Template Model.....23

	Page
C. LOCOMOTION ENGINEERING	
1. Variation of Human Dynamic Ankle Stiffness with Mean Ankle Torque.....	25
2. Clinical Evaluation of the Q-leg as a Lower Limb Prosthesis for Partial Weight Bearing....	27
3. Use of Averaged EMG Profiles in the Assessment of Normal and Pathological Gait.....	29
4. Transcutaneous Muscle Stimulator with Two Independent Channels for Use by Cerebral Palsied Children with Spastic Diplegia.....	31

PLENARY SESSION III TUESDAY 0830-1000

BIOETHICS

1. Bioethics in the 80's: Implications for Bio-Engineering.....	33
(Invited Speaker: Michael J. Stogre, S.J., M.D., Jesuit Centre, Toronto, Ontario)	
2. Comments on the Rationing of Health Care.....	34
3. Who Decides ?	36

SESSIONS TUESDAY 1030-1200

A. BIOMECHANICS

1. Surface Tension of Cartilage as Determined by Contact Angle Measurements.....	39
2. *A Partial Joint Replacement for the MCP Joint.....	41
3. *Fatigue Testing of Cement Fixation Techniques for Tibial Components of Total Knee Prosthesis.....	43
4. Biomechanics of Management of Burst and Fracture Dislocation Types of Spinal Injuries with a New Anterior-Fixation Device.....	45

B. SIGNAL PROCESSING I

1. Nexus: An Interpreter for the Analysis of Physiological Systems.....	47
2. Syntactic Analysis of the EEG - A Preliminary Report.....	49
3. Identification of Two-sided Linear Filters.....	51
4. *Digital Phase Correction of Bio-Electric Data.....	53

C. CLINICAL ENGINEERING INSTRUMENTATION

1. *Instrumentation for Circulatory Monitoring of Replanted Digits.....	55
2. A Clinical Study in the Use of Thermography for the Detection of Pain.....	57
3. Errors Associated with the Invasive Measurement of Arterial Blood Pressure in Hypertension.....	59
4. Paediatric Fluid Dynamics at the Hospital for Sick Children.....	61

SESSIONS TUESDAY 1330-1500

Page

A. REHABILITATION DEVICES

1. An Endotracheal Artificial Larynx.....63
2. Drooling Assessment of Children with Cerebral Palsy.....65
3. Mobility Aid Battery Charge Indication.....67
4. Access to Computers and Other Systems for Physically Handicapped Persons:
The Modular Solution.....69

B. ULTRASOUND/IMAGING

1. An Ultrasound Image Processing System.....71
2. Dual-Channel CCD-based Spectrum Analyzer for Doppler Ultrasound Arterial Assessment.....73
3. Carotid and Peripheral Vascular Assessment by Doppler Ultrasound: Clinical System Design..75
4. Scanning Speed Requirement for Computed Tomography of Moving Objects.....77

C. BIOELECTRICITY, MISCELLANEOUS

1. *Measurement of the Electrotonic Parameters of Small Central Neurons:
The Shunt Cable Model.....79
2. Extracellular and Intracellular Measurement of Electrical Activity in the Canine Colon....81
3. Changes in the Variance of the Electrocardiogram at Different Points
of the Cardiac Cycle.....83
4. Spatial Relationship Between Electro-Surgical Current Amplitude and Temperature Rise.....85

PLENARY SESSION IV WEDNESDAY 0830-1000**BIOLOGICAL SIGNAL PROCESSING AND CONTROL**

1. Some Applications of Neuroelectric and Myoelectric Signals.....87
(Invited Speaker: C.J. DeLuca, Children's Hospital Medical Centre, Boston, Mass.)
2. Harmonic Components of the Myo-Electric Power Spectrum as a Function of Static Load..... 89
3. Signal-to-noise Ratio for Sensory Nerve Measurements.....91

SESSIONS WEDNESDAY 1030-1200**A. SIGNAL PROCESSING II - MYOELECTRIC**

1. A Microprocessor Based Myoelectric Signal Processor with Kalman Filtering.....93
2. *Multistate Myoelectric Signal Processor with Adaptive Switching Boundaries.....95
3. Homomorphic Processing of Surface EMG Signals.....97
4. A Polarity Correlator for Muscle Conduction Velocity Measurement.....99

B. VISION/MISCELLANEOUS

1. A Tilt-Table/Ankle Actuator System for the Study of Vestibulospinal Reflexes and their Interaction with Stretch Reflexes.....101

2. A Microprocessor-Controlled Three-Dimensional Display for Stimulating Binocular Eye Movements.....103

3. Vision and the Lateral and Sagittal Postural Oscillations in Man During Normal Upright Stance.....105

4. A Stochastic Perspective on Athero-Sclerosis107

AUTHORS' INDEX.....109

* PAPERS DESIGNATED BY AN ASTERISK HAVE BEEN ENTERED IN THE STUDENT PAPER COMPETITION.
