

NELSON D. DURIE

**CMBEC 10**

*Biomedical Engineering:  
The Future of Health Care*

*10th Canadian Medical and Biological Engineering Conference*

*Proceedings*

*Comptes rendus*

*10ième Congrès canadien de génie biomédical*

*Génie biomédical:  
Le futur du domaine de la santé*

**CCGB 10**

*Ottawa, Canada 17-20 June/juin 1984*

## **SPONSORS AND CONTRIBUTORS**

Medical Research Council of Canada

Bureau of Medical Devices, Health Protection Branch, Health & Welfare Canada.

Commercial and Industrial Development Corporation of Ottawa-Carleton

City of Ottawa

HONEYWELL Medical Electronics Division

Hewlett-Packard (Canada) Limited

Johnson and Johnson Inc.

Smith and Nephew Inc.

Travenol Canada Inc.

IMED Canada Inc.

## **CONFERENCE ORGANIZING COMMITTEE**

Chairman:	Michael Cheng
Co-chairman and Local Arrangements:	Derek Uttley
Scientific Program:	Dennis Lywood
Keynote Program:	Fred Fiksel
Publications:	Alan Mortimer
Exhibits:	Brian Winchester
Tours and Companions' Program:	Brian Graham
Media Relations:	Derek Walter
Secretariat:	Sally Chapman
CMBES Advisor:	Nelson Durie

## TABLE OF CONTENTS

KEYNOTE ADDRESS and INVITED SPEAKERS .....	1
SESSION A	
Quantification of the Variability of Biological Oscillators.....	3
Can a Nonrepetitive Electrical Stimulus Distrub the Synchrony of the Gastric Myogenic Control System ? .....	5
The Nature of Power Spectra of Clinical Brainstem Auditory Evoked Potentitals .....	7
SESSION B	
A Quality Assurance Program for Hospital-Bsed Biomedical Engineering Engineering Departments .....	9
Medical and Surgical Robotics .....	11
SESSION C	
Method for Estimating Instantaneous Centre of Rotation for Joints Using Electrogonimotry .....	13
Muscle Stiffness Measurements in the Presence of Reflexes.....	15
Different Stretch Reflex Mechanisms in Ankle Flexors and Extensors .....	17
Position Dependence of Ankle Joint Dynamics: Passive Mechanics .....	19
SESSION D	
Surface Recorded Spinal Evoked Potentials .....	21
Application of Matched Filters in Monitoring Spinal Evoked Potentials .....	23
A Maximum Likelihood Method to Estimate Evoked EEG Potentials .....	25
Automatic Identification and Storage of Motor Unit Action Potentials .....	27
SESSION E	
Dynamic Pressure-Flow-Dimension Relations of the Superior Vena Cava .....	29
Theoretical Stress Analysis of Vasoconstriction at Arterial Branch Points Using the Finite Element Technique .....	31
Technologie pour évaluer le comportement dynamique des prothèses artérielles Platelet Adhesion to Native and Treated Bioprosthetic Heart Valves Part I: Static Test to Study Influence of Glutaraldehyde Fixation and Exposure Times .....	33
Part II: Dynamic Tests in A Specially Designed Pulsatile Flow Cell .....	35
Insulin Aggregation .....	37
SESSION F	
Simulation and Clinical Studies on the Inverse Recovery of the Cardiac Moving Dipole by Surface Integration .....	41
Localisation non-invasive de foyers de tachycardie ventriculaire par un dipole mobile chez le chien .....	43
Application de la theorie de câble a l'étude de la propagation électrique cardiaque .....	45
Simulation numérique de potentiels d'action cardiaques sur un câble bouclé .	47
Simulation of the Wolff-Parkinson-White Preexcitation Syndrome Using Realistic Heart and Torso Models .....	49
Traitement de signaux et identification des arythmies cardiaques .....	51
SESSION G	
Computer Simulation of the Peripheral Auditory Apparatus .....	53
Speech Processing for Cochlear Implants - A Modelling Approach .....	55
The Evaluation and Monitoring of Phonological Degeneration in Pathological Voices .....	57

SESSION I	
Increase in Myocardial Contractility Using Pulsed Ultrasound .....	59
Investigations of the Cardiovascular Effects of Therapeutic Ultrasound	
Applied in Situ .....	61
Identification and Quantification of Ultrasonic Echoes in	
Pediatric Cardiology .....	63
Improved Mid-Peripheral Corneal Pachymetry Using Digitized	
20MHz Ultrasound .....	65
SESSION J	
Wanted: A Canadian Constitution for Electromedical Equipment Safety	
Standards .....	67
Risk Current Revisited - Development of an International Rationale.....	69
SESSION K	
Tibial Strains in the Osteoarthritic Knee in Vitro: Varus/Valgus Loading ..	71
Role of the Subchondral Bone-Plate in the Longevity of Acetabular	
Prostheses .....	73
Geometry of the First Metatarsal Head - The Prelude to the Design of a	
Resurfacing MTP Joint .....	75
A Three Dimensional Finite Element Model of the Upper Tibia .....	77
Universal Joints: The Weak Link in Flexible, External Fixation	
of Long Bones .....	79
SESSION L	
Detection of Ventricular Wall Boundaries from Sequences of	
Angiographic Images .....	81
A Simulation Study of NMR Imaging Techniques .....	83
Texture Extraction from Complex Ultrasonic B-Mode Images .....	85
Microcomputer Analysis of Left Ventricular Video-Angiograms .....	87
Ultrasonic B-Scan Texture Simulations .....	89
SESSION M	
Conduction Velocity Measurement Dispersion .....	91
Digital Median Frequency Estimator .....	93
Latency Correction of Single Sweeps in the Study of Evoked Potentials .....	95
Extensions to Nexus: A Language for System and Signal Analysis .....	97
SESSION O	
A High Performance Data Acquisition System for Body Surface	
Potential Mapping .....	99
A Data-Acquisition System for Nuclear Medicine Research .....	101
Development of a Sonograph Breast Scanner Capable of Storing 400 Images ...	103
SESSION P	
The Current Status of Blood Warmers in Canada .....	104
The Hemolysis Through Hypochlorite Contamination of Dialysate:	
A New Outlook .....	106
Disposable Syringes: Problems and Selection Criteria .....	108
SESSION Q	
Standalone Left Ventricular Arrhythmia Rejector for Nuclear Imaging .....	110
A Minicomputer Based Selpot and EMG System for Studying	
Mandibular Movement .....	112
PDP-11 Support for the INTEL 2920 Signal Processing Chip .....	114
A Possible Application of LPC: Spelling Correction .....	116
An Expert Laboratory System for Clinical Vision Research .....	118

<b>SESSION R</b>	
Optical and Gravimetric Techniques for Evaluation of Insulin	
Infusion Pumps .....	120
Medical Gas Outlets in the '80s .....	122
Clinical Evaluation of Infant Transcutaneous Oxygen Monitors .....	124
Evaluating the Thermal Performance of Incubators: An Essential Parameter...	126
A Clinical Equipment Safety Management Programme .....	128

<b>SESSION S</b>	
Rapid Solidification Processing: New Trends in Metallic Implant Technology	130
An ERG Stimulator Based on a Constant Light Source .....	132
Matching Instrumentation Design to User Application .....	134
DERM*PROBE: An Alternative Approach to Complement an Existing Computer-Assisted Diagnostic System .....	136
Drop Analysis of the Urinary Stream .....	138

<b>SESSION T</b>	
Microcomputer Technology for Health Hazard Appraisal .....	140
A Rate-Dependent Limb Load Monitor .....	141
Clinical Testing of the New Parallelogram Goniometer .....	143
Design Considerations for Inductive Stimulators for the Electro-Treatment of Non-Unions .....	145
Biomedical Opto-Isolated Amplifier .....	147

**POSTERS**

Electrical Stimulators in Spine Fusion .....	149
Examination of Automatic Function in Man .....	150
Comparison of Negative Feedback and Predictive Control Strategies in the Regulation of Arterial Blood Pressure .....	152
An Automated Approach to Parenteral Nutrition Constituents Computation.....	154
Hazards of Apnea Monitors - Some Case Histories .....	155
Servocontrol in Radiant Warmers: An Absence of Stability .....	158
Objective Assessment of the Progress of Treatment of Depressed Patients Based Upon Syntatic EEG Analysis: A Preliminary Report .....	164
Spectral and Correlation Analysis of Heart Diseases .....	166
New Thinking for New Technology .....	167
Simple Therapy Devices .....	168
