

EXPANDING HORIZONS

12th Canadian Medical and Biological Engineering Conference
1st International Federation Pan-Pacific Symposium

12ième Congrès Canadien
du génie biomédical

HORIZONS OUVERTS

PROCEEDINGS

July/juillet 23-27, 1986
Vancouver, B.C. Canada

CONFERENCE ORGANIZING COMMITTEE

Chairman, Proj. Mgmt.	George Eisler
Chairman, Publicity & Publications	Carolyn Small
Scientific Program	Ron Evans
Exhibits	Ron Green
Treasurer	Paul Hotte
Proceedings	Keith Whitmore
Audiovisual Services	Doug Brydle
Photographic Services	Steve Friend
Student Paper Competition	Charles Laszlo
Secretariat	Pauline Mushens
With assistance from:	Jochen Boehm
	Kia Salomens
	Paul Hopkins
	Judy Findlay

TABLE OF CONTENTS

KEYNOTE ADDRESS.....	1
----------------------	---

SESSION W1 - REHABILITATION ENGINEERING

The Unistik (TM) Vehicle Controller: A Unique Approach to Driving for People with Disabilities.....	3
Wheelchair and Passenger Safety Restraint in Transportation for the Physically Disabled.....	5
The G.F. Strong Computerized Driver Assessment Module (CDAM).....	7
A D.C. Wheelchair Drive with Power Supply Voltage Compensation.....	9
Low Cost Easy to Use Disabled Persons Robot.....	11
Rehabilitation Electronic Access Project.....	13
Computerized Biofeedback Instrumentation to Help Institutional Staff Work with Profoundly Multiply Handicapped Children.....	15
"Talking Signs" - An Accessibility Solution for the Blind and Visually Impaired.....	17
Assessment of Communication Technical Aids in the Daily Life of Handicapped Users by a Systemic Approach of Interactions.....	19
A Prototype Floor Reaction Hybrid FES Orthosis for Assisting Prolonged Standing and Walking in SCI Subjects.....	20

SESSION T1 - REHABILITATION ENGINEERING

Determination of Afferent Nerve Stimulation Thresholds with Application to Prosthetic Sensory Feedback.....	22
Nonlinear Second Order Model of Wrist Hypertonia in Spastic Hemiplegia.....	25
Disorders of the Head-Neck-Movement System: Relation to an Explanatory Optimal Control Model.....	27
Child Amputee Gait: A Comparison Between the Sach and Single-Axis Foot Components.....	29
Data Condensation Method for Gait Studies.....	31
A Microprocessor-Based 3-D Anthropometer.....	33
Dynamic Testing of Below Knee Prostheses.....	35
The Ten Millimetre Zone in Knee Arthroplasty.....	37

SESSION T2 - CLINICAL ENGINEERING

Design and Use of a Breath Alcohol Simulator for the Evaluation of Pocket-Sized Electronic Breath Alcohol Analyzers.....	39
Small Three Dimensional Force Plates.....	41
Posture Platform.....	43
Support of Medical Equipment Used in a Critical-Care Transport Vehicle.....	45
Experience with Battery-Powered Infant Transport System.....	47
Analog Data Acquisition for Infusion Pump Testing.....	49
Flexible Fiber Optic Laser Scalpel for Endoscopic Applications Using CO Laser.....	51
Comparison of the Effects of Interferential and Alternating Currents on Ventricular Fibrillation.....	53

SESSION T3 - BIOPHYSIOLOGY

Chemical Transducers.....	55
Novel Method for Non-Invasive Measurement of Biomedical Substances in Blood.....	57
Mathematical Modelling of the Dynamics of Plasma Corticotropin- Releasing Factor Using an Optimized Blood Sampling Protocol.....	59
Field Stimulation, An Effective Tool in the Study of Electrical Coupling in the Canine Colon.....	61
Fast Estimate of the Conduction Velocity Distribution in Peripheral Nerve Trunks.....	63

SESSION T4 - CLINICAL ENGINEERING

Computerized System for Assessing Observer Error and Teaching Improved Skills in Blood Pressure Measurement.....	65
Occlusive Pressure Tracking in Moderate Artifact.....	67
A Study of Force Systems Produced by Orthodontic Springs.....	69
Electrical Burns Revisited: Are They Your Responsibility?.....	71
A Province-Wide Regional Clinical Engineering Program: Development, Implementation and Evaluation.....	73

SESSION T5 - ELECTROENCEPHALOGRAPHY

Evaluation of a Technique for the Identification of Time-Varying Systems Using Experimental and Simulated Data.....	75
On the Accuracy and Precision of Topographic Maps of the EEG.....	77
EEG Correlates of Male-Female Differences in Verbally and Spatially- Based Cognitive Tasks.....	79
Adaptation of the Basic Locomotor Synergy for Locomotion on a Sloped Terrain.....	81
Closed-Loop Control of a Slow Movement of a Skeletal Joint Using Functional Electrical Stimulation Via Surface Electrode.....	83
Relation Between the Electrical and Torque Responses of Electrically Stimulated Muscle Via Surface Electrodes.....	85

SESSION T6 - QUALITY ASSURANCE

A Prelude to QA For Biomedical Engineering.....	87
Evaluation of Quality Assurance in Biomedical Engineering I - Microscopic Perspective.....	89
Evaluation of Quality Assurance in Biomedical Engineering II - Macroscopic Perspective.....	91
A Computerized Clinical Equipment Management System.....	93
Clinical Engineering Productivity and Cost Effectiveness.....	95
Fire in the Operating Room.....	97

SESSION F2 - COMPUTERS IN MEDICINE

Reconstruction of Chemical-Shift NMR Images from Spatially
Reduced FID Samples..... 99
Image Processing in Medicine Using Approximate Reasoning Methods..... 101
PCBCAD: A Program for Computer Aided Design of Printed Circuit Boards..... 103
A Human-Computer Interface for Monitoring and Recording During
Surgical Anesthesia..... 105
Computerisation of an I.T.U..... 107
Computer-Aided Medical Diagnosis in Dermatology: Present System and
Future Considerations..... 109
Hierarchical Expert System for Medical Diagnosis - A Conceptual Framework.. 111

SESSION F3 - ELECTROMYOGRAPHY

Variation of Human Ankle Stiffness During Large Changes in Muscle
Activation Levels..... 113
Contactless Magnetic Neuro-Muscular Stimulation..... 115
Recording and Analysis System for Estimating Muscle Load from
Ambulatory Electromyography..... 116
EMG-Torque Dynamics: Effect of Torque Amplitude Modulation..... 118
Identification of the Dynamic Force-EMG Relation Using Nonlinear
System Identification Techniques..... 120
Effect of Level of Contraction of the Cross-Correlation Function
Between Two Biceps EMG Measurements..... 122

SESSION F5 - CARDIOVASCULAR PHYSIOLOGY

Exercise ECG Quality Enhancement with a High Performance Digital Filter... 124
Position Induced Changes in the Heart Rate Spectrum of Young Children..... 126
Power Spectral Analysis of Heart Rate Variability for the Study of
Autonomic Function..... 128
Continuous Measurement of Systolic Time Intervals by Thoracic Impedance
Cardiography..... 130
Segmental Contractile Analysis of Right Ventricle..... 132
Simulation Study of Threshold Excitability in Cardiac Cell..... 134
The Role of Anisotropy and Twist in the Mechanics of the Passive Heart.... 136
A Computer Study of Normal and Pathological Left Ventricular (LV)
Function..... 138
Revised Parameters for the Hodgkin-Huxley Representation of the
Sodium Current in Cardiac Cells..... 140
New Measures of Left Centricular Resistance-to-Filling and
Contractility for Candidacy for Bypass Surgery..... 142

SESSION F4 - BIOMATERIALS

Polar Flexural Rigidity Profile..... 144
Hoffman Externally-Applied Fracture-Fixation Frames: A Study of the
Stability of Ten Different Configurations..... 146
Strength of Fixation Wire With and Without Knots..... 148
Effect of Papain on the Proteoglycans and Dynamic Mechanical
Characteristics of Human Articular Cartilage..... 150
A Three Dimensional Finite Element Model of the Distal Humerus..... 152
Animal Experiments in the Analysis of Implants..... 154

POSTER SESSION

Pattern Classification of Brainstem Auditory Evoked Potentials of Normals and Patients.....	156
Application of Liquid Crystal Technology for Low Power Vital Sign Displays.....	158
The Heating of Adult Burn Patients.....	160
Identification of Physiological Lung Compartments by Constrained Optimization Using Magnetic Resonance Images.....	162
A New Technique for Measuring the Stress-Strain Distribution on the Planar Surface of the Foot.....	164

SESSION F6 - MICROPROCESSOR TECHNOLOGY

The Impact of Microprocessor Technology on Patient Care - An Infusion Management Perspective.....	166
Impact of Microprocessor Technology on the Clinical Use and Servicing of Medical Instruments.....	168

SESSION S1 - MEDICAL AND SURGICAL ROBOTICS

Development and Initial Assessment of an Advanced Robotic Assistant for Arthroscopic Surgery.....	170
Milestones in the Evolution of an Advanced Robotic Assistant for Arthroscopic Surgery.....	172
Development of an Integrated Operator Control Unit for Medical Devices Used in Surgery.....	174
Introduction of Advanced Robotics into Refractive Surgery in Ophthalmology.....	176
A Robotic Processor for Hazardous Blood Specimens.....	178

SESSION S2 - BIOMEDICAL ENGINEERING EDUCATION IN IFMBE MEMBER COUNTRIES

Biomedical Engineering Education in The People's Republic of China.....	180
---	-----

SESSION S4 - TECHNOLOGY TRANSFER

Joint U.S. - Sweden Workshop: The Role of University Research in the Future Development of the Biomedical Industry.....	182
Manufacturing Licensing Agreements - A Hospital's Experience.....	184

SESSION S4 - BIOMEDICAL ENGINEERING IN DEVELOPING COUNTRIES

Health Care Technology in the Third World: Manpower Needs and Training...	186
Medical Equipment: Needs After the Earthquake in Mexico City.....	188
Traditional Medicine in China.....	190
